AMERICA'S CAR MUSEUM®

**Paul E. Miller**
**Vice President, Operations**
**Board of Directors Secretary**

Paul E. Miller, a native and lifelong resident of Tacoma, Wash., is pulling double duty with America's Car Museum. In addition to serving as ACM Vice President of Operations and Board Secretary, Paul has multiple "day jobs," but that's just fine with the former Tacoma City Councilmember and Deputy Mayor. His work with ACM ultimately allows Paul to continue his longstanding efforts to improve his hometown.

As Vice President of Operations, Paul has managed the construction of the four-story Museum building project adjacent to the Tacoma Dome and he's a longstanding member of the Museum's board.

Paul has devoted thousands of hours as a board member to numerous civic organizations, including the Sound Transit Board, Pierce Transit Board, Puget Sound Regional Council and Greater Tacoma Community Foundation, among others. His involvement in the community has also included a stint as Chair of the Tacoma Symphony Board, a post on the Organizing Committee for the Chihuly Center for Glass, District Chairman for the Boys Scouts of America and many other roles with local groups.

Pertaining to the "day jobs," Paul has been Managing General Partner of Miller Investment Partnership (since 1979), an asset holding and management firm, and President of Leisure Development Co. (since 1982), a land development and commercial construction company. He is also a licensed commercial broker and owner of Paul E. Miller Brokerage, with a CCIM designation.

Paul was born and raised in Tacoma's west end, where he currently lives with his wife Gloria and daughter Michelle.
