AMERICA'S CAR MUSEUM

AMERICA'S CAR MUSEUM®

Forget everything you know about car museums. AMERICA'S CAR MUSEUM is unlike anything you've ever experienced!

The new LeMay-AMERICA'S CAR MUSEUM® is like no other—anywhere. Granted, the restoration, preservation and presentation of historically significant and beautiful cars, many from the personal collection of Harold and Nancy LeMay, will always be a key part of the Museum's on-going mission. Fascinating exhibits will rotate through the many galleries and tell, in dramatic fashion, the compelling story of the automobile as a prime mover in contemporary culture. You will of course, find a store with books and gifts and a spot to grab a tasty bite... all standard fare at any world-class car museum.

The vision of AMERICA'S CAR MUSEUM is to go beyond the standard—to be an exciting and innovative “institution” rather than simply a building housing cars. ACM is designed to be at the very center of car culture—a gathering place in which to learn, have fun, form friendships and experience adventures.

When completed, the new Museum campus will take things to the next level with club rooms, banquet facilities, a preservation center and on-site vehicle storage. A year-round calendar of exhibits, speakers, conferences and seminars will serve the educational mission of the Museum. The, unique to ACM, outdoor grass show field will provide the perfect venue for car shows, club events, community festivals, concerts and “summer movies under the stars.”

If ever a place deserved the title “Center of Car Culture,” LeMay- AMERICA'S CAR MUSEUM is it! ■
